

iBAS+ + Admin Task Manual — Module 5: Regulations

Module 5 — Regulations

Menu: Learning → **Regulations** (or from book editor)

Process 5.1 — Publish a standalone regulation

Start: Regulation text exists outside a book chapter.

End: Regulation is searchable and linkable from syllabus.

1. Open **Regulations** (or create from **Book admin** / book editor if tied to a book).
2. Create a new regulation with its full text.
3. Optionally link it to a book, chapter, or topic.
4. Save and open the regulation detail page to review.
5. Done — regulation appears in search and syllabus reference picker.

Process 5.2 — Record an amendment to a regulation

Start: Regulation exists; official amendment issued.

End: Amendment history captured on the regulation.

1. Open **Regulations** → find and open the regulation.
2. Add an **amendment** entry with the new text or change note.
3. Save.
4. Verify the detail page shows the amendment in history.

Process 5.3 — Retire a regulation

Start: Regulation should no longer be used.

End: Regulation removed from active catalog.

1. Open the regulation detail page.
 2. **Delete** (or edit to mark inactive per your policy).
 3. Confirm it no longer appears in default search.
