

iBAS+ + Admin Task Manual — Module 9: Papers

Module 9 — Papers

Menu: Content admin → **New paper** → paper composer

Process 9.1 — Create and publish a practice paper

Start: Exam subject exists; published questions exist.

End: Learners can open a published paper.

1. Open **New paper**.
2. Pick the **exam** and **subject**, paper type, and paper name — create draft.
3. You are in the **composer** — add **Section 1** (e.g. Part A — MCQ).
4. Add questions from the bank into that section (only **published** questions appear).
5. Add more sections until the paper structure matches your blueprint.
6. Check **allocated marks** matches **total marks** (banner on page).
7. Click **Publish**.
8. Open **Practice papers** list — confirm status is Published.

Process 9.2 — Revise a draft paper before publish

Start: Draft paper exists; not yet published.

End: Draft ready for final review.

1. Open **Practice papers** → open the draft.
2. Add/remove/reorder sections.
3. Add/remove questions; adjust marks per question if allowed.
4. Re-check allocated vs total marks.
5. When ready, run **Process 9.1** step 7 (Publish).

Process 9.3 — Unpublish or fix a live paper

Start: Published paper has errors.

End: Learners no longer see bad paper, or corrected version live.

1. Open the paper composer.
2. Click **Unpublish** to take it offline.

3. Fix sections/questions.

4. Publish again when correct.
