

iBAS+ + Admin Task Manual — Module 11: PDF to Word (OCR tool)

Module 11 — PDF to Word (OCR tool)

Menu: Tools → **PDF to Word**

Process 11.1 — Convert a scanned PDF to editable Word for data entry

Start: Source material is PDF (scan or digital).

End: .docx file on your machine for copy-paste into books/questions.

1. Open **PDF to Word**.
 2. Choose the PDF file.
 3. Click **Convert & download Word**.
 4. Wait — first run may take several minutes (language packs download once).
 5. Open the downloaded Word file locally.
 6. Copy cleaned text into **Book admin** or **New question** as part of **Module 4** or **Module 6**.
 7. Always proofread OCR output before publishing.
