

Module 12 — Audit

Menu: Administration → **Audit log**

Process 12.1 — Review system activity after go-live

Start: Users have been working in workflow and admin modules.

End: You have verified actions for compliance or troubleshooting.

1. Open **Audit log**.
2. Filter or scroll to the date range you care about.
3. Read entries for who did what (workflow submits, admin changes, etc.).
4. Follow up offline with users if something looks wrong.

(No data entry — read only.)
